The Board of Trade of White Haven is sending abroad, to manufacturers and capitalists, circulars descriptive of the town and detailing its advantages as an industrial center.

We were told the other day that it was chalked up against the Lehigh Advocate, "If you don't like the editor, you can't like the circulation of the paper, but we are of the opinion that Editor Aertshimer has a right to his opinion and has a right to express it.

The sight of an ugly inflamed boil or sore, to say nothing of its dangerous tendency, should induce any sufferer to try Leukador, the infallible remedy for these troublesome blood disorders.

Many of the farmers in adjoining counties are said to have been caught on promissory notes which they signed while supposing they were only putting their name to pledges presented by a "Colonel." The Off Told Story

Of the peculiar medicinal merits of Hood's Sarsaparilla is fully confirmed by the voluntary testimony of thousands who have tried it. Peculiar in the combination, proportion, and preparation of its ingredients, peculiar in the extreme care with which it is prepared, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail.

Hood's Sarsaparilla. It is the most popular and successful medicine before the public today for purifying the blood, giving strength, creating an appetite, and suffering from weakness and low spirits, and also had cures on the back of my head and neck, which was very annoying. I took one bottle of Hood's Sarsaparilla, and have received so much benefit that I am very grateful, and I am always glad to speak a good word for this medicine." Mrs. J. S. Strawn, Pottsville, Penn.

Purifies the Blood

Henry Biggs, Campbell Street, Kansas City, had serious sores all over his body for fifteen years. Hood's Sarsaparilla completely cured him. Wallace Buck, of North Bloomfield, N. Y., suffered eleven years with a terrible varicose ulcer on his leg, so bad that he had to give up business. He was cured of the ulcer, and also of eczema, by Hood's Sarsaparilla.

IN THE LABOR WOOD.

Specially Compiled for the Tolerably an Advocate Man. —Eman, Lehigh county, has two stockings in the labor wood.

—Employees of the Pennsylvania Railroad Company must pay all bills they contract or the company will take them in charge.

—In the sidings at Laury's station are rails which have seen thirty-six years of service. They are twenty feet long and weigh about forty pounds per yard.

—The superintendent of the Nesquehoning collieries passed through here Monday with a pack of twenty or thirty mules. The mules were evidently on their way to winter quarters which makes the outlook bad for the miners in Nesquehoning.

—The reason why railroad men seldom get hurt in leaping on moving trains is that they know just how to do it. They do not stand with back to the engine, but with the hand of the forward handrail with the hand nearest the train, swing, or rather are swung, upon the steps. It is easy when a person knows how to do it, and men exist upon nearly every railroad who can mount a train going at thirty-five or forty miles an hour.

—The Lehigh Navigation Company Monday issued their ultimatum in this region in connection with the pending strike of their men in the Anthracite region, which is to the effect that if the men do not resume work on or before the 10th of the present month the company will shut down all their works for one year. This includes the collieries at Lansford, Coaldale, Nesquehoning and Tamaqua, employing several thousands of men. The men will resist what they consider an arbitrary course of the company.

—Speaking of the coal prospects the Coal Trade Journal says that there will be enough to go round. It says there is a dearth of Lehigh Valley coal, only an occasional lot being sold as such. There is no probability of a strike in the Wyoming district, and work there is very brisk indeed. In the Lehigh there is no change, the strike being very reasonable in their order. The local market is in such shape that dealers are always anxious for the coal.

—An exchange says "the miners are to be starved into submission! And yet they call this the enlightened and advanced nineteenth century, can history furnish a parallel to this? The strike of Russia, before their emancipation, were subject no worse conditions than the blasted and bonded slavery imposed upon the miners of the anthracite coal region. Ireland, sorely afflicted as this is, in no worse condition than the miners over whom the coal barons dominate. But the day of final deliverance will come and we believe the coal kings realize it.
